Virtualization, Backup & Security: VMware, Hyper-V, Virtual Servers, Virtual Networks, Windows Backup, Microsoft 365 Backup, Altaro Backup, IDrive, Disaster Recovery, Data Protection, Security Best Practices, System Availability

Development, Collaboration & Service Tools: Swift, Objective-C, HTML, PHP, JavaScript, Xcode, ServiceNow, Kaseya, Freshdesk, osTicket, Documentation, Stakeholder Management, Process Improvement, Quality Management Systems

Technical Skills

Operating Systems & Endpoints: Windows 10/11, Windows Server 2019, macOS, Desktop & Laptop Deployment, Hardware Installation & Upgrades, Device Configuration, Application Installation

Infrastructure & IT Operations: Server Administration, Remote Administration, Infrastructure Monitoring, System Maintenance, Connectivity Diagnostics, Backup & Recovery, Business Continuity Support

IT Service & Administration: Incident Resolution, Service Request Fulfilment, Ticket Prioritisation, Escalation Management, User Onboarding & Offboarding, Mailbox Administration, Permission Management, Technical Documentation, Knowledge Base Development

Software Engineering: Application Debugging, Code Reviews, Software Testing, SDLC, Production Support

Professional Experience

IT Support Specialist, Internship (Professional Year Internship)

June 2026 – Present

Australian Training and Qualification College | Sydney, Australia

- Provide **Level 1 IT support by troubleshooting hardware, software, and peripheral** issues for staff and end users.
- Configure, deploy, and maintain desktops, laptops, printers, and classroom IT equipment to ensure operational readiness.
- Support **Microsoft 365 applications**, including **Outlook, Teams, OneDrive**, Word, Excel, and PowerPoint.
- Diagnose and resolve hardware, software, printer, and basic network connectivity issues in a timely manner.
- Maintain **IT asset inventory**, document technical issues and resolutions, and collaborate with the IT team to deliver efficient technical support.

IT Support Officer (Internship)

May 2024 – Jul 2024

Active IT | Sydney, Australia

- **Resolved 20–25 Level 1 support tickets daily across Microsoft-based environments**, consistently meeting SLA targets while delivering high-quality technical support within a fast-paced MSP environment.
- Administered **Microsoft 365, Exchange Online, Microsoft Entra ID (Azure AD), Active Directory and Azure**, managing user provisioning, mailbox configuration, licensing, permissions, password resets and identity lifecycle activities.
- Supported enterprise infrastructure by **troubleshooting Windows Server, VMware, Hyper-V, networking, VPN** and remote access technologies, ensuring secure and reliable IT operations.

- Implemented and **maintained automated backup and disaster recovery solutions**, strengthening data protection, system resilience and compliance with organisational security standards.
- Developed **technical documentation, knowledge base articles and standardized support procedures**, improving first-call resolution and enhancing overall IT service delivery.
- Contributed to the **successful delivery of a 15-week Professional Year IT support program**, supporting business users while driving continuous improvements through Quality Management System (QMS) practices and customer-focused service delivery.

Customer Service Representative

Jan 2022 – May 2024

Officeworks | Sydney, Australia

- Delivered **exceptional customer service by supporting 100+ customer interactions** weekly across in-store, phone and digital channels while consistently maintaining high service standards.
- **Resolved customer enquiries and product-related issues**, contributing to improved customer satisfaction and supporting repeat business through consultative service.
- Collaborated with cross-functional teams to **streamline service processes, reducing response times** and enhancing overall operational efficiency.
- Maintained accurate **customer and sales records, ensuring 100% compliance** with company procedures and transaction documentation standards.
- Leveraged **strong product and technical knowledge** to recommend tailored solutions, troubleshoot customer concerns and support informed purchasing decisions.

Software Developer (iOS)

Mar 2016 – May 2018

Trootech Business Solutions | India

- Designed, developed and **deployed 6+ native iOS applications from concept to production**, successfully publishing live applications on the Apple App Store.
- Developed **scalable mobile applications using Swift and Objective-C**, improving application stability and performance while supporting a seamless user experience.
- **Collaborated with 5+ clients and cross-functional teams** to translate business requirements into technical solutions, ensuring on-time delivery across multiple projects.
- **Reduced production defects** through systematic debugging, peer code reviews and adherence to secure coding standards, improving overall application quality.
- Produced comprehensive **technical documentation and provided post-deployment production support**, accelerating issue resolution and enhancing application maintainability.

Consulting & Business Projects

Enterprise Microsoft 365 & Infrastructure Administration

Technologies: Microsoft 365, Exchange Online, Microsoft Entra ID, Azure, Active Directory, VMware, Hyper-V

- Administered Microsoft 365 environments, managing user provisioning, mailbox configuration, licensing, permissions and identity services across cloud and on-premise infrastructure.
- Supported Windows Server, virtualization platforms, networking and backup operations while contributing to secure, reliable and high-availability IT environments.

Education

Professional Year Program (Information Technology)

2025

ECA | Sydney, Australia

Master of Information Technology

2019 - 2021

Charles Sturt University | Sydney, Australia

Bachelor of Engineering (Computer Engineering)

2012 – 2016

Gujarat Technological University | India
